Maps

This map is about my community's safe places. In the map I have pointed out the Parks and Community Centers in my community. I chose to select these **areas for my map because when I first moved into my community, I was an extremely shy person** who found it difficult to **make friends**. These places helped me talk to different people **and find my sense of belonging** within my beautiful community. Parks helped me talk **to kids my age and understand how everyone is different and unique in their own ways and the community**

**centers** helped me joining clubs and better **my soft and hard** skills.
